Empowering your purchasing decisions for electricals

Yes, you've **sust-it!**

It's not just our meters that are in a spin about energy costs. Saving energy not only makes sense for our pockets, it reduces our impact on the environment and helps us all to be more sustainable in a changing world.

Have you ever wondered how much your **Fridge Freezer**, **Washing Tumble dryer** costs to run a year? Or how much energy **Plasma TVs** consume in-use or on standby? **Plasma TVs** consume in-use or on standby? **Plasma TVs** consume in-use or on standby?
